Ngagel Rejo 3 no 1

Fresh graduate from Business Statistics ITS with hands-on experience in Data Analytics and Business Intelligence, supported by an internship as a Junior Quality Analyst at Unilever, BNSP Business Intelligence certification, and Data Analyst Associate Certification from DataCamp. Experienced in building automated data pipelines and Power BI dashboards, statistical analysis, forecasting, data validation, and root cause analysis. Proficient in Excel, Power Query, VBA, Power BI, SQL, and Python, with a strong ability to transform complex data into actionable business insights.

Education

Sepuluh Nopember Institute of Technology - **Surabaya** Aug 2022 - Aug 2026

***Bachelor**, 3.42/4.00*

***Thesis**: Integration of Historical Data and Market Sentiment in Bitcoin Price Prediction Using Indo RoBERTa Financial-BIGRU*

***Related Course**: Machine Learning, Deep Learning, Business Forecasting, Unstructured Data, Programming, Data Exploration & Visualization, Technic Sampling, Statistical Computation, Management Investation, Risk Management, Regression*

Certification

***Business Intelligence Analyst* – BNSP,** Jul 2026 – Jul 2029

***Data Analyst Associate Certification* – DataCamp,** Oct 2026 - Oct 2028

Work Experiences

PT Unilever - **Surabaya, Indonesia** Jan 2026 - Jun 2026

Data Analyst (Quality Control & Process Improvement)

Unilever is a multinational company that provides household, food, and personal care products worldwide.

- Data Pipeline & Dashboard Automation: Designed automated Excel data pipelines and interactive Power BI dashboards across 4 key laboratories (Packaging, QD Line, Raw Material, Microbiology), transforming manual reporting into real-time monitoring systems.
- Process Capability & Supplier Analytics: Automated Process Capability (Cp & Cpk) calculations to evaluate supplier performance, proactively monitor chemical formulations, and accelerate the detection of out-of-spec materials.
- Root Cause Analysis (RCA): Spearheaded RCA on consumer complaints utilizing correlation analysis on machine operational parameters, delivering data-driven calibration recommendations that successfully mitigated recurring defects.
- Quality & Regulatory Compliance: Executed statistical sampling analysis on the net weight of finished goods, ensuring 100% production line compliance with Ministry of Trade (BDKT) regulations and safeguarding brand integrity.

MPM Motor Honda - **Surabaya** Feb 2024 - Aug 2024

Surveyor

MPM Motor Honda is the official Honda motorcycle dealer network operating under PT Mitra Pinasthika Mulia (MPM Honda Jatim).

- Conducting price surveys of both gasoline and electric motorcycles at the beginning and middle of each month.
- The survey project covers 20 Vario or Aerox motorcycles manufactured between 2022–2024, and 5 Beat motorcycles manufactured between 2021–2023.

Projects

Logistics & Shipment Analytics Oct 2026

Personal Project | PostgreSQL, SQL (Window Functions), Power BI, DAX

- Data Architecture & Pipeline: Engineered an idempotent PostgreSQL ETL pipeline and star-schema warehouse to unify 4 operational tables into a single source of truth for KPIs.
- SQL & Cost Analytics: Analyzed 480 shipments worth IDR 370.96M using SQL window functions, uncovering fuel as the primary cost driver (57.9%) and flagging SLA breaches.
- Dashboarding & SLA Monitoring: Built an interactive 2-page Power BI dashboard using custom DAX to track logistics performance, measuring a 69.6% on-time delivery rate and 4.38-day average delivery time.

E-Commerce Data Intelligence & Spatial Analysis Sep 2026

Personal Project | Python, Pandas, GeoPandas, Folium, Streamlit

- Data Wrangling & RFM Modeling: Cleaned and merged multi-table Brazilian e-commerce datasets to build a quantile-based RFM segmentation model, identifying that 52% of customers fall under "Potential Loyalists" for targeted retention campaigns.
- Spatial Analytics & App Deployment: Engineered multi-layered geospatial maps using Folium and GeoPandas, deploying an interactive Streamlit web app for stakeholders to track regional revenue and customer satisfaction across states.
- Customer Satisfaction & SLA Analytics: Quantified the impact of fulfillment delays, uncovering that despite representing only 6.67% of total orders, late deliveries caused average review scores to plunge from 4.29 to 2.27 and drove 1-star ratings up to 53.78%.

Government Issue Social Media Monitoring Aug 2026

Personal Project | Python, Pandas, Inset Lexicon, Sentiment Analysis, Web Scraping

- Cross-Platform Social Listening & NLP: Aggregated and processed 15,134 posts across TikTok, Facebook, and Instagram, applying

InSet lexicon-based sentiment analysis and categorizing 34 tracking keywords into 7 key public policy domains.

- Engagement & Channel Performance Analytics: Uncovered critical channel disparities where TikTok generated 79.4% of total engagement from just 11.6% of post volume (~13x higher engagement per post than Facebook), with "Politics & Government" capturing 58.2% of engagement.
- Text Mining & Anomaly Detection: Conducted word-frequency analysis to audit public discourse integrity, successfully identifying that 35.9% of posts in the "Defense & Security" category were promotional spam hijacking official government hashtags.

Healthcare Data Intelligence & BI Reporting Jul 2026

Personal Project | Python, Query, Power BI, DAX

- Data Modeling & Preprocessing: Architected a Star Schema model integrating 101,000+ medical records and filtered out 7,103 non-eligible cases to establish a clean dataset of 94,663 patient encounters.
- DAX & Clinical Analytics: Developed advanced DAX measures to track hospital KPIs, establishing an overall 11.37% <30-day readmission rate and revealing that HbA1c testing correlated with lower readmission (9.82% vs. 11.68%).
- Targeted Risk Identification: Pinpointed Internal Medicine and the 70–80 age demographic as the top drivers of readmissions, empowering clinical teams to optimize targeted discharge protocols.

Organisational Experience

ShoeBib - **Surabaya City** Nov 2024 - Sekarang

Chief Financial Officer

"A micro, small, and medium enterprise (MSME) operating with a 'care' business model for shoes, successfully securing funding from IYT 2024 and HETI Student 2025.

- Managed cash flow projections with total funding of Rp25 million, ensuring optimal liquidity and effective risk mitigation.
- Implemented cost-saving initiatives, reducing annual operating expenses by Rp1 million.
- Developed a risk management framework to identify vulnerabilities, lowering financial risk by 20%.
- Analyzed investment opportunities and provided recommendations that generated annual returns of 15%.
- Produced monthly financial reports at the end of each period.

KSPM Vokasi ITS - **Institut Teknologi Sepuluh Nopember (ITS)** Dec 2025 - Jul 2026

Research and Analyst

KSPM (Kelompok Studi Pasar Modal) serves as a practical platform for student to explore the capital market

- Macroeconomic analysis like inflation, interest rates, currency values, and monetary policy
- Stock market analysis (IDX Composite, top sectors, selected stocks)
- global and domestic market sentiment analysis

Himadata ITS - **Surabaya City** Jan 2024 - Dec 2024

Staff Enterpreneur

Business Statistics Student Association at ITS

- Diversify revenue streams, enforce strict operational cost management, and set realistic booth rental prices.
- Conduct market research, provide attractive incentives for vendors, and actively build personal communication.

Kopma ITS 41st Anniversary Event - **Institut Teknologi Sepuluh Nopember** Mar 2023 - Jun 2023

Publication & Documentation

Event with scala Jawa-Bali region, featuring e-sport and business plan competitions.

- Designed and created promotional posters prior to the event using Canva
- Coordinated with other divisions to ensure documentation met event requirements
- Documented event activities through photos and videos and managed documentation archives for internal and external publication
- Edited and produced the official after movie as a publication using VN Studio

OKKBK – Business Statistics Department Orientation - ITS Aug 2023

Publication & Documentation

Introductory program designed to enhance students' professional skills and curriculum

- Designed and created promotional banner prior to the event
- Documented sessions and activities through photos and videos and managed documentation archives for internal and external use
- Edited and produced the official after movie as a publication using VN Studio

Entrepreneurship Workshop - **Zoom Meeting** Oct 2024

Core Committee Member

Introductory training program focused on entrepreneurial skills development through seminars and practical sessions.

- Coordinated planning and execution of workshop activities
- Designed and created promotional materials (posters and announcements)
- Managed participant registration and communication
- Documented sessions and activities through photos and videos

Course, Projects & Other Experience

- **AWS AI Academy 2026** (2026): Generative AI, Python, Kiro, Machine Learning, Amazon Web Service (AWS)
- **Coding Camp 2026 3.0 powered by DBS Foundation** (2026): Data Science, Machine Learning, Python, SQL, Data Analysis
- **Microsoft Elevate Training Center (METC) - Skill Sprint** (2026): Data Science Implementation with Microsoft Fabric, Generative AI Application Development on Microsoft Azure
- **Forecasting Bitcoin Price Based Historical Data and Sentiment Analysis** (2026): Deep Learning, GRU, BiGRU, LLM
- **ICoDMI IPB** (2026): International Conference on Data Science, Mathematics, and Informatics IPB
- **ISO 45001:2018-Based Occupational Health and Safety Management System** (2026): Badan Standardisasi Nasional
- **ISO 31000-Based Risk Management** (2026): Badan Standardisasi Nasional
- **Supervised Learning Project** (2025): Developed machine learning models (Random Forest & SVM) to classify AIDS patients, achieving accuracy greater than 80%
- **Dicoding Membangun Negeri** (2025): Python, SQL, Data Science, AI, Data Visualization
- **DSB Face Check** (2025): Developing a face recognition model using Python (OpenCV, Face Recognition)
- **Training AI4U Bitlabs** (2025): Basic AI, Generatif AI, Ethical AI
- **Finalis HETI Student ITS** (2025): Chief Financial Officer
- **Finalist of ITS Youth Technopreneur** (2024): Chief Financial Officer
- **Journal Publication** (2025): EVALUASI KETERKAITAN FAKTOR KESEHATAN IBU DI BANGLADESH MENGGUNAKAN ANALISIS KOMPONEN UTAMA DAN ANALISIS FAKTOR
- **Fundamental of Quality Management System** (2025): 5R and ISO 9001:2015
- **British Council** (2025): B1 (Intermediate)
- **Adidas Interactive Performance Dashboard** (2024): Create an interactive dashboard using Flourish
- **Adidas Retailer Performance** (2024): Create a dashboard using Power BI
- **Entrepeneurship PKM ITS** (2024): SosiaFund : Inovasi Fintech Berbasis 3P (People, Planet, Profit)
